

**REGISTER BOOK**

**2023**

# INDEX

KEY TO ABBREVIATIONS, MARKS, SYMBOLS, ETC., USED IN THE BOOK.....	III
SHIPS, INCLUDED IN THE BOOK IN ORDER OF THEIR REGISTER NUMBER.....	3
BOOK OF THE SHIPS CLASSED BY TASNEEF (PLEASURE AND NAVAL VESSELS EXCLUDED).....	7
APPENDIX TO THE BOOK	
- List of ships not included in the 2022 edition of the Register Book, which are included in the Book as at 31 December 2022.....	55
- List of ships which appeared in the 2022 edition of the Register Book and which, in the Book as at 31 December 2022, are not listed.....	59
- Former names of ships included in the Book.....	63
- Alphabetical list of Owners of ships listed in the Book, with their ships classed by Tasneef.....	67
- Alphabetical list of Shipyards included in the Book and of ships built by them and classed by Tasneef.....	75

*Key to abbreviations, marks, symbols, etc.,  
used in the Book*

N.B.: In the case of vessels recently entered into class, some data may have not been recorded yet (in this case the relevant space is void).

<b>Name</b>	
Ship name	
<b>Register No.</b>	
It is the Register number, assigned by the Society, which will remain unchanged during the life of the ship	
<b>IMO number</b>	
It is specified the identification number assigned to the ship by the IMO (International Maritime Organization)	
<b>Former names</b>	
Ship name history	
<b>Category</b>	
<b>GL</b>	Non-self-propelled craft
<b>HSC A CAT</b>	High speed craft - catamaran - (A category)
<b>HSC C MON</b>	High speed craft - monohull - (C category)
<b>MN</b>	Motorship
<b>MS</b>	Motor-boat
<b>NT</b>	Self-propelled craft
<b>PL (aut)</b>	Self-elevating mobile platform
<b>Service</b>	
<b>container ship</b>	Ship specially intended to carry containers in holds or on decks.
<b>deck cargo ship</b>	Ships designed to carry solid general cargo exclusively above deck without any access for cargo below deck.
<b>escort tug</b>	Ship specially equipped for towing and/or pushing having specific equipment for escorting ships or units during navigation.
<b>fire-fighting ship - 1</b>	Ship specially intended and equipped for fighting fire.
<b>hopper dredger</b>	Ship specially equipped for dredging activities and carrying spoils or dredged material.
<b>liquefied gas carrier</b>	Ship specially intended to carry liquefied gases.
<b>Offshore Support Vessel</b>	Ship specially intended to provide facilities and assistance for the performance of offshore activities
<b>passenger ship</b>	Ship intended to carry more than 12 passengers.
<b>pontoon</b>	Non-propelled unit intended to carry cargo and/or equipment on deck only.
<b>pontoon - crane</b>	Non-propelled unit intended to carry cargo and/or equipment on deck only. Unit with crane permanently fitted on board.
<b>ro-ro cargo ship</b>	Ship specially intended to carry vehicles, trains or loads on wheeled beds.
<b>ro-ro passenger ship</b>	Ship intended to carry more than 12 passengers and specially equipped to load trains or wheeled vehicles.
<b>special service</b>	
<b>supply vessel</b>	Ship specially intended for the carriage and/or storage of special material and equipment and/or which is used to provide facilities and assistance for the performance of specified activities.
<b>tug</b>	Ship specially equipped for towing and/or pushing.
<b>workboat</b>	Ship intended for commercial use, other than those in use for recreational, sport and pleasure, having a load line length between 4 m and 24 m, with a maximum speed of 45 knots and carrying no more than 12 passengers.
<b>Owner</b>	
Registered Owner name	
<b>Flag</b>	
The country the flag of which the ship is entitled to fly is specified in bold type.	
<b>Call sign</b>	
It consists of signal letters or radio call sign assigned by the national authority	
<b>Port of registry</b>	
Port in which the ship is officially registered. (Reg. Int.) indicates the Italian International Registry.	
<b>No of registry</b>	
Identification number assigned by the national authority.	
<b>Dec. Office</b>	
Abbreviation identifying the Branch Office where documents relevant to the ship are filed and which provides to manage the same ship.	
<b>CSD</b>	Classification and Statutory
<b>OPN</b>	Operations

<b>Main Class symbols and Construction marks</b>	
<b>C ☒</b>	Ship surveyed during construction by a QSCS Classification Society
<b>C ●</b>	Ship not surveyed during construction
<b>C ✱</b>	Ship surveyed during construction
<b>C ☒ (light ship)</b>	Ship surveyed during construction by a QSCS Classification Society, light ship
<b>C ● (light ship)</b>	Ship not surveyed during construction, light ship
<b>C ☒ HULL</b>	Ship hull surveyed during construction by a QSCS Classification Society, no machinery covered
<b>C ● HULL</b>	Ship hull not surveyed during construction, no machinery covered
<b>C ● HULL ☒ MACH</b>	Ship hull not surv. during construction, machinery surveyed by a QSCS Classification Society
<b>C ✱ HULL ☒ MACH</b>	Ship hull surveyed during construction, machinery surveyed by a QSCS Classification Society
<b>C ☒ HULL ● MACH</b>	Ship hull surveyed during construction by a QSCS Classification Society, machinery not surveyed
<b>Navigation</b>	
<b>coastal area</b>	Within 20 (twenty) nautical miles from the shore and with a maximum sailing time of six hours from a port of refuge or safe sheltered anchorage.
<b>inland waterways</b>	In specified lakes, rivers or canals.
<b>NAV 60 - B</b>	Voyages only within 60 nautical miles from a safe haven with wind force (Beaufort scale) up to and including 8 and significant wave height (H 1/3, metres) up to and including 4
<b>sheltered area</b>	In sheltered waters, i.e. harbours, estuaries, roadsteads, bays, lagoons and generally calm stretches of water and when the wind force does not exceed 6 (six) Beaufort scale.
<b>special navigation</b>	Special International
<b>special navigation</b>	Special National
<b>Special Navigation (Arabian Peninsula)</b>	Special Navigation (Arabian Peninsula)
<b>tropical zone</b>	Within the geographical limits as defined in ILLC 1966 for the Tropical zones.
<b>unrestricted - specified operating area</b>	unrestricted navigation, under specific operating conditions (see remarks)
<b>unrestricted navigation</b>	Unrestricted navigation
<b>First entry Running from Period of class</b>	
Date of entry into class, date of commencement of the class period in force and its duration (years:months:days).	
<b>Continuous surveys</b>	
When the ship is admitted to the continuous survey procedure for the hull and/or machinery installations, the abbreviations H and/or M are indicated.	
<b>Additional notations</b>	
<b>☒ AUT-UMS</b>	Unattended machinery space: automated installations enabling machinery spaces to remain periodically unattended in all sailing conditions including manoeuvring. System surveyed during construction by a QSCS Classification Society.
<b>● AUT-UMS</b>	Unattended machinery space: automated installations enabling machinery spaces to remain periodically unattended in all sailing conditions including manoeuvring. System not surveyed during construction.
<b>✱ AUT-UMS</b>	Unattended machinery space: automated installations enabling machinery spaces to remain periodically unattended in all sailing conditions including manoeuvring. System surveyed during construction.
<b>BWM-E - sequential</b>	The ship complies with the "International Convention for the Control and Management of Ship's Ballast Water and Sediments" as adopted by IMO on 13 February 2004, by means of a Ballast Water Exchange system of a sequential type
<b>CARGO HANDLING</b>	Unit provided with lifting arrangements to load and unload cargoes: from the unit itself to shore facilities and vice versa, from the unit itself to another unit and vice versa (transshipment), from a delivery unit to a receiving unit. The lifting arrangements are to comply with the "Rules for loading and unloading arrangements and for other lifting appliances on board ships or other similar units"
<b>COAT-WBT</b>	Ship surveyed during construction, whose water ballast tanks have been provided with protective coatings complying with the requirements given in the Classification Rules, Pt F, Ch 10, Sec 12.
<b>COMF-NOISE-A</b>	Comfort with regard to noise; merit level "A".
<b>COMF-VIB-A</b>	Comfort with regard to vibration; merit level "A".
<b>DMS</b>	The ship complies with the damage stability requirements in accordance with the applicable Classification Rules
<b>● DYNAPOS</b>	Dynamic positioning system. System not surveyed during construction.
<b>● DYNAPOS AM/AT</b>	Dynamic positioning system (automatic mode and tracking). System not surveyed during construction.
<b>GRAB</b>	Hold tank tops designed for loading/unloading cargoes by means of grabs having a maximum mass as indicated in brackets.
<b>GRABLOADING</b>	Loading by grabs: hold tank tops specially reinforced for loading/unloading cargoes by means of grabs or buckets.
<b>GREEN STAR 3</b>	Ship provided with equipment and procedural means, additional to the mandatory ones, to prevent pollution of the sea and of the air.
<b>GREEN STAR 3 DESIGN</b>	Sea and air pollution prevention (CLEAN-SEA and CLEAN-AIR): construction and procedural means to prevent pollution of the sea and of the air (ship whose keel was laid on or after 1/7/2006).
<b>ICE CLASS IC</b>	Navigation in ice: navigation in light ice conditions.
<b>INWATERSURVEY</b>	Ship provided with suitable arrangements to facilitate the in-water surveys.
<b>MON-SHAFT</b>	Tailshaft monitoring system: fitted with a temperature monitoring system for the tailshaft sterntube aft bearing.

<b>Additional notations</b>	
<b>PMS</b>	<i>Ship which has implemented a Planned Maintenance Scheme approved by the Society.</i>
<b>REF-CARGO</b>	<i>Refrigerating installations for cargo: refrigerating plants and holds intended to carry cargoes, with the condition that the number and the power of the refrigerating units are such that the specified temperatures can be maintained with one unit on standby. System surveyed during construction by a QSCS Classification Society.</i>
<b>VCS</b>	<i>Vapour control system: cargo vapour control systems both in way of midship cargo crossovers and in way of stern cargo manifolds.</i>
<b>Other Classification Societies</b>	
<i>If a ship is classed also with another Society, this Society is recorded with the abbreviations listed below. Where the abbreviation is shown in brackets, this indicates that the ship was previously classed with that Society</i>	
<b>ABS</b>	<i>American Bureau of Shipping</i>
<b>B.C.</b>	<i>Bureau Colombo</i>
<b>BV</b>	<i>Bureau Veritas</i>
<b>IRS</b>	<i>Indian Register of Shipping</i>
<b>KR</b>	<i>Korean Register of Shipping</i>
<b>LR</b>	<i>Lloyd's Register of Shipping</i>
<b>NKK</b>	<i>Nippon Kaiji Kyokai</i>
<b>RINA</b>	<i>RINA Services S.p.A.</i>
<b>RS</b>	<i>Russian Maritime Register of Shipping</i>
<b>VL</b>	<i>DNV GL</i>
<b>Equip. No.</b>	
<i>Equipment Number EN according to Classification Rules.</i>	

<b>Gross tonnage - Net tonnage</b>
The values of the gross and net tonnage may be indicated as specified in the following: - Values of the international gross (GT) and net tonnage (NT) - Values of the gross and net national tonnage (according to the rules of the flag Administration)
<b>Deadweight</b>
The abbreviation Dwt is followed by the value of the deadweight in metric tons
<b>Overall length</b>
The abbreviation Loa is followed by the value of the maximum overall length, in metres
<b>TONNAGE DIMENS.</b>
<b>International tonnage measurement</b>
For ships whose tonnage has been determined according to the provisions of the 1969 International Convention, the main registered dimensions, in m, are given as follows top to bottom: - registered length corresponding to 96 per cent of the total length on a waterline at 85 per cent of the least moulded depth measured from the top of the keel, or the length from the fore side of the stem to the axis of the rudder stock on that waterline, whichever is the greater - maximum breadth measured at half the registered length defined above to the moulded line of the frame, in a ship with a metal shell) and to the outer surface of the hull, in a ship with a shell of any other material - depth, corresponding to the vertical distance measured from the top of the keel to the underside of the upper deck at side measured at half the registered length defined above
<b>National tonnage measurements</b>
For ships whose tonnage has been determined in accordance with national regulations, the main registered dimensions (length, breadth and depth, in m), are given as follows from top to bottom: - maximum overall length - maximum breadth to the outer surface of the shell plating - depth measured on the centreline at hull midship section from the underside of the tonnage deck to the inner bottom (to the top of the floor of bottom longitudinals, in ships without double bottom)
<b>moulded dimens.</b>
The main moulded dimensions recorded in <i>Italic type</i> , from top to bottom, are the length between perpendiculars, the breadth and the depth, respectively, measured, in metres, as follows: - length (for ships with a metallic shell) measured from the fore side of the stem to the after side of the rudder post, at the summer load waterline, or length (for wooden ships) measured from the after side of the stem to the fore side of the rudder post at their intersection with the lower surface of the main deck planking (where no rudder post is fitted, the centreline of the rudder stock is assumed as after end) - greatest breadth amidships from heel of frame to heel of frame - depth equal to the vertical distance amidships from the top of keel to the free-board deck beam at side; in case of ships with metal shell, or, in case of wooden ships, to the vertical distance measured from the upper corner of the keel rabbet to the main deck beam at side
<b>Free board</b>
After the abbreviation fb, it is specified the value, in mm, of the freeboard assigned, i. e. the distance measured vertically amidships from the upper edge of the load line mark (centre of ring) to the upper edge of the deck line.  The deck line is a horizontal line, 300 mm in length and 25 mm in breadth, which is marked amidships on each side of the ship, whose upper edge normally passes through the point where the continuation outwards of the upper surface of the freeboard deck intersects the outer surface of the shell. In some special cases, the deck line may be placed and marked above or below the freeboard deck; in such cases, below the value of the freeboard assigned, the value of the distance, in mm, measured vertically from the deck line and the freeboard deck is indicated after the abbreviation dld (with the negative sign, if the deck line is placed and marked below the freeboard deck)
<b>Deck line dist.</b>
Deck line distance (dld)
<b>Draught</b>
The abbreviation Dght is followed by the value, in mm, of the maximum draught amidships when the ship is loaded to her summer load line mark (centre of the ring), measured from underkeel line. When the draught is measured from the moulded line instead of the underkeel line, the relevant value is followed by the letters Lc.
<b>Cargo linear mt</b>
<b>Car number</b>
<b>Truck number</b>

<b>HULL</b>	
<i>The Builder and the year, month, place and number of building are indicated by bold, Italic and normal type. The year of build is the year and month at which the new construction survey process is completed.</i>	
<b>Builder</b>	
<i>Builder</i>	
<b>Building place</b>	
<i>Building place</i>	
<b>Year of build</b>	
<i>Year of build</i>	
<b>Hull No.</b>	
<i>Number of build</i>	
<b>Hull material</b>	
<b>Composite</b>	<i>Composite</i>
<b>Light alloy</b>	<i>Light alloy</i>
<b>Steel/High resistance</b>	<i>Steel/High resistance</i>
<b>Steel/High resistance and ordinary</b>	<i>Steel/High resistance and ordinary</i>
<b>Steel/Inox</b>	<i>Steel/Inox</i>
<b>Steel/Ordinary</b>	<i>Steel/Ordinary</i>
<b>decks</b>	
<i>The constructional details concerned are recorded in the order from aft to fore and from top to bottom. The number of decks fitted on board are given before the relevant abbreviations.</i>	
<b>Dk</b>	<i>Complete decks</i>
<b>Dk(p)</b>	<i>Partial decks</i>
<b>CONSTRUCTIONAL DETAILS</b>	
<b>Keel type</b>	
<b>BK</b>	<i>Bar keel</i>
<b>DK</b>	<i>Duct keel</i>
<b>FLK</b>	<i>Flat keel</i>
<b>Stern type</b>	
<b>CrSt</b>	<i>Cruiser stern</i>
<b>FLSt</b>	<i>Transom stern</i>
<b>RSt</b>	<i>Round Stern</i>
<b>SLSt</b>	<i>Inclined</i>
<b>SqSt</b>	<i>Square stern</i>

<b>Mcr</b>	<i>Center</i>
<b>Mfwd</b>	<i>Fore</i>
<b>Hatchways</b>	
<i>Cargo hatchways</i>	
<b>Derricks and cranes</b>	
<i>Cargo derricks and cranes</i>	
<b>Cr</b>	<i>Crane</i>

COLUMN 4

<b>Alterations to the hull</b>
<i>Alterations, conversions, modifications and major repairs relevant to the hull</i>
Every abbreviation may be followed by the indication of the year of completion of the works concerned.

<b>MACHINERY</b>	
<i>The above-mentioned details concerning the propulsion machinery are indicated by bold, italic and normal type.</i>	
<i>The year of build is the year in which the construction of the machinery has been completed.</i>	
<i>In the case of ships or other units not provided with mechanical means for their self-propulsion, such as, for example, non self-propelled craft (GL), sailing ships (VL), floating storage units (FSO, FPSO), etc., in lieu of the indication of number, type, manufacturer and year of build of the propulsion machinery, the wording "NON SELF-PROPELLED" will appear.</i>	
<b>Type</b>	
<i>Type of propulsaion machinery</i>	
<b>DIE</b>	<i>Diesel engine</i>
<b>ELM-Ac</b>	<i>Alternating current electric motor</i>
<b>Year of build</b>	
<b>Manufacturer - Place of build</b>	
<b>Power, in kW - r.p.m.</b>	
<b>CHARACTERISTICS OF PROPULSION MACHINERY</b>	
<b>2S</b>	<i>Two stroke engine</i>
<b>4S</b>	<i>Four stroke engine</i>
<b>Chp</b>	<i>Engine having cross head pistons</i>
<b>Trp</b>	<i>Trunk piston engine</i>
<b>cyl-line</b>	<i>Engine with in line cylinders</i>
<b>cyl-Vee</b>	<i>Vee-type cylinder engine</i>
<b>MAIN AND AUXILIARY BOILERS</b>	
<b>Boiler type</b>	
<b>AB</b>	<i>Auxiliary boiler</i>
<b>MB</b>	<i>Main boiler</i>
<b>Boiler type of construction</b>	
<b>CFt</b>	<i>Cylindrical fire tube type</i>
<b>Cft</b>	<i>Fire tube boiler</i>
<b>Lpsg</b>	<i>Low pressure steam generator</i>
<b>Toh</b>	<i>Thermal oil heater</i>
<b>Wt</b>	<i>Water tube boiler</i>
<b>Combined boiler alternative combustibile</b>	
<b>Boh</b>	<i>Boil-off heating</i>
<b>Gas</b>	<i>Gas fired boiler</i>
<b>Gas/Exh</b>	<i>Exhaust gas boiler</i>
<b>Oil</b>	<i>Oil heated boiler</i>
<b>Oil/Exh</b>	<i>Composite (oil and exhaust gas) heated boiler</i>
<b>Oil/Gas</b>	<i>Composite (oil and gas) heated boiler</i>
<b>Oil/Sth</b>	<i>Oil fired - cargo vapour boiler</i>
<b>Oil/Sth</b>	<i>Composite (oil and steam) heated boiler</i>
<b>Sth</b>	<i>Steam heated boiler</i>
<b>Toh</b>	<i>Thermal oil heater</i>
<b>Low pressure and thermal oil boiler combustibile</b>	
<b>Exh</b>	<i>Exhaust gas heated boiler</i>
<b>Flu</b>	<i>Thermal oil heater</i>
<b>Oil</b>	<i>Oil heated boiler</i>
<b>Boiler properties</b>	
<b>HS</b>	<i>Heating surface</i>
<b>Sht</b>	<i>Superheater</i>
<b>ELECTRICAL PLAN - GENERATORS</b>	
<b>Ac</b>	<i>Alternating current electrical generator</i>
<b>SCREWSHAFTS AND PROPELLERS</b>	
<b>Propeller type</b>	
<b>Cpp</b>	<i>Controllable pitch propeller</i>
<b>Fbp</b>	<i>Fixed blade propeller</i>
<b>ST-aft</b>	<i>Aft side thruster</i>
<b>ST-fwd</b>	<i>Fore side thruster</i>

<b>Screwshafts</b>	
<b>Cls</b>	<i>Screwshaft fitted with continuous liner</i>
<b>Crms</b>	<i>Screwshaft made of stainless steel or other corrosion resistant material</i>
<b>Ncls</b>	<i>Screwshaft fitted with non-continuous liner or without liner</i>
<b>Propeller shaft lubricating medium</b>	
<b>Gls</b>	<i>Grease lubricated screwshaft</i>
<b>Ols</b>	<i>Oil lubricated screwshaft</i>
<b>Wls</b>	<i>Water lubricated screwshaft</i>
<b>Propeller shaft outboard coupling type</b>	
<b>Fp</b>	<i>Propeller fitted to a solid flange coupling at the aft screwshaft end</i>
<b>Kp</b>	<i>Propeller keyed to the aft screwshaft taper without the keyway shaped to reduce stress concentration</i>
<b>Ksp</b>	<i>Propeller keyed to the aft screwshaft taper with the keyway shaped to reduce stress concentration</i>
<b>Shp</b>	<i>Propeller fitted keyless to the aft screwshaft taper by means of shrinkage</i>
<b>Special propulsion type</b>	
<b>Hyd</b>	<i>Hydrojet propulsion</i>
<b>Schot</b>	<i>Schottel type propeller</i>
<b>Sde</b>	<i>Propulsion by stern drive engine (s)</i>

*Appendix to the Book*

*List of ships not included in the 2022 edition of the  
Register Book, which are included in the Book  
as at 31 December 2022*

## Ships not included in the previous edition

Register number	Ship's Name in the Book as at Dec 2022	Service	Gross Tonnage
2993	ADNOC A01	Offshore Support Vessel - anchor handling ; tug	499
1577	ADNOC C01	special service	123
1963	ADNOC C02	special service	96,57
3267	ADNOC C03	workboat - crew transfer vessel - CTV	279
2947	ADNOC F01	workboat - crew transfer vessel - CTV	181
2477	AL DHAFRA	passenger ship	308
3061	AL GANTUR	dredger - no propulsion	198,61
3024	AL GHARBIA	MODU - self - drilling - crane	7418
3097	AL HUDAIRIYAT	MODU - self - drilling - crane	7418
171	AL JAZEERA	ro-ro cargo ship	227
3095	AL LULU	MODU - self - drilling - crane	7418
3091	AL- HAIL	MODU - self - drilling - crane	9264
1258	BATOOL	pontoon	274
1499	EMPEROR 10 (EX MNG ADVENTURE)	special service - crew transfer vessel - CTV	112
3062	FAHID	dredger - no propulsion	198,6
1661	GOVINDA EX. CS 28	supply vessel	386
458	INCHCAPE 11	special service - crew transfer vessel - CTV	111
2994	SERNAKH	Offshore Support Vessel	776
3060	SHELEILAH	dredger - no propulsion	198,6
3226	SULTANA 2 (EX S S VICTORY )	supply vessel	614
90001	TEST SHIP 2	special service	0
3177	TOSHA	special service - crew transfer vessel - CTV	197
1485	XCLUSIVE 2	passenger ship	99
2476	YAMEELA	HSC - A - CAT ; passenger ship	560
1273	ZEFI	special service - crew transfer vessel - CTV	103

*List of ships which appeared in the 2022 edition of the  
Register Book and which, in the Book  
as at 31 December 2022, are not listed*

Ships included in the previous edition but not in this one

Register number	Ship's Name in the Book as at 31 December 2022	Service	Gross Tonnage	Cause of the deletion
191	AL SALMY 6	ro-ro cargo ship	16021	Constructive total loss (IACS code "1c")
259	BAB ANN	pontoon	304	Causes of suspension not removed
1746	DUBAI WATER CANAL 1	passenger ship	343	Causes of suspension not removed
1693	HILI 1	tug	145	At the request of the Owner
1304	JABAL AL AQQAHA	tug ; fire-fighting ship - 1 - water-spraying	312	Causes of suspension not removed
1303	JABAL AL BIDIYA	tug ; fire-fighting ship - 1 - water-spraying	312	Causes of suspension not removed
1302	JABAL YABSA	tug ; fire-fighting ship - 1 - water-spraying	312	Causes of suspension not removed
1806	LADY BETH	special service - crew transfer vessel	171	Causes of suspension not removed
1263	LAKE TAHOE	special service	116	At the request of the Owner
2010	QUTOOF - 1	pontoon	1352	Causes of suspension not removed
1585	SEA QUEEN	ro-ro cargo ship	576	Causes of suspension not removed

*Former names of ships included in the Book*

## FORMER NAMES

<i>Former name</i>	<i>Register No.</i>	<i>Present name</i>	<i>Former name</i>	<i>Register No.</i>	<i>Present name</i>

TEST SHIP 1	90001	TEST SHIP 2			
<b>Y</b>					
YELLOW SEA	2148	AL OUN			

*Alphabetical list of Owners of ships listed in the Book  
with their ships classed by Tasneef*

# NOTES

For each concerned Shipowner, the information in this List is given in the following order:

- Shipowner name and relevant identification Code (given between brackets)
- Registered Office of the Shipowner (address, phone, telefax, telex and cable/E-Mail)
- Management Office of the Shipowner, when different from the Registered Office (postal address, phone, telefax, telex and cable/E-Mail)

In addition, for each ship belonging to the concerned Shipowner and classed by Tasneef, the following information is given:

Column 1	Register number
Column 2	Ship's name
Column 3	Ship's service (Abbr.)
Column 4	Year of build
Column 5	Gross tonnage
